Dear Exhibitor

We are pleased to be able to hold the poultry section at North Yorkshire County Show after having to wait for the final directive from DEFRA so it has made it late to circulate the schedule, please be patient on the morning of the show. We have to follow the DEFRA Biosecurity guide lines ALL CARRYING BOXES & the BIRDS will be checked by the welfare officer & his assistants, & a declaration signed before they can go in to the show marquee to speed up this process please make sure your boxes are spotless & the bedding inside fresh (no birds to be carried in without a carrying box ) Thank you for your cooperation please find below the DEFRA 15/5/2017 Biosecurity guide lines 7. The licensee of any fair, market, show or exhibition must provide biosecurity advice in advance of such an event to all participants that must include:

(a) A recommendation that birds should be health-checked before travelling to any gathering; and

(b) A recommendation that any birds travelling from a gathering to any premises (whether they are returning stock or to a new location) must be isolated from other birds at that premises and health-monitored for at least one week afterwards.

8. The licensee must not allow any cage, crate, basket, receptacle or other container onto a gathering which is visibly contaminated with bird droppings or other material of bird origin, other than faeces produced during the transportation of the birds to the gathering. This requirement must be made known in advance to all participants in the licensee's advertising literature, on entry forms or by any other appropriate means.

10. The licensee must:

i) Ensure that no poultry are allowed to enter a gathering unless the

participant declares that they do not originate from premises or areas which are under restrictions related to confirmation of a notifiable avian disease, including from any temporary disease controlled zone or Avian Influenza Prevention Zone imposed by Ministers;

ii) Ensure that a veterinary surgeon is available to attend at short notice, during the whole time that birds are present at the event, and the licensee must consult that veterinary surgeon if birds show signs of ill-health or welfare problem;

iii) For poultry, ensure that when they arrive at the event venue the poultry remain isolated from all other birds on the event site until all such poultry have been individually inspected by a named poultry expert designated by the licensee;

iv) Ensure that any poultry that fail the inspection, or show any signs suggestive of avian notifiable disease during the event, are reported immediately to APHA. Such birds must be prevented from participating at the gathering and be kept isolated from other birds until examined by a veterinary inspector and written authority obtained from APHA permitting them to leave the gathering; for full version.
